FORGET THIS SERVER.

INTRODUCING THE LENOVO THINKSERVER™.

AN IDEA THAT'S EASY TO INSTALL.
EASY TO MAINTAIN. EASY TO FORGET.

lenovo®

THE THINKSERVER™ SERIES. IT MEANS BUSINESS.

Lenovo presents its new ThinkServer™ Series, combining first-class hardware with hassle-free software tools to deliver top-notch performance for your growing business. The rock-solid engineering that's synonymous with the Think® brand goes into every model of the ThinkServer Series. Our thoughtfully designed software — EasyStartup, Easy Update and EasyManage — allows for easy installation, maintenance and updates, while our worry-free services are designed to keep you up and running.

YOUR PERFECT BUSINESS SOLUTION.

The ThinkServer Series offers 1 and 2-way Intel®-based racks and towers with single and dual sockets. These low cost, easy-to-install and easy-to-use solutions offer high reliability and performance, catering to your specific business needs. On one end, Lenovo 1P racks and towers are designed to fit small business budgets with exceptional ease of use, flexibility and high-end features. On the other end, ThinkServer 2P racks and towers combine outstanding performance with flexible growth and enterprise-class capabilities for fast-growing small businesses. Regardless of the system you select or your business' build, Lenovo Easy Tools support management that is based on industry standards, allowing for easy integration with your existing infrastructure.

DESIGNED TO MATURE WITH YOUR BUSINESS.

As your business grows in size, so will your ThinkServer. That's why we make upgrading seamless. And thanks to durable hardware and Advanced ECC memory, the risk of system downtime is reduced, protecting you and your business. ThinkServers not only keep pace with your evolving business — they help you stay ahead in a competitive environment.

ENRICHED WITH COMPLETE SUPPORT.

Realizing that not every small business can boast a dedicated IT staff, Lenovo provides value-added software for easy installation, maintenance and management. Lenovo ThinkServer EasyStartup, EasyUpdate and EasyManage help you meet your business needs simply and effectively. Lenovo provides the services you need to get your solution productive and your server maintained throughout its lifecycle. Not to mention Lenovo includes a 90-day trial of the ThinkPlus® Priority Support package.

DESIGNED FOR YOUR PEACE OF MIND.

Trust Lenovo to support and protect your infrastructure because we understand the dynamics of your business. As a strategic partner, Lenovo not only is committed to protecting your servers, networks and workstations, but also committed to offering attractively priced products supported by finance options and buy-back solutions.

INTRODUCING THE FLEXIBLE LENOVO THINKSERVER™ TS100.

This single-processor tower server is an entry system for the very small business, giving you flexible growth for your expanding business needs. Uptime is of known importance and scalability is no problem. Just what you need to upgrade from a desktop computer and power your file/print, e-mail and Web priorities — along with your ideas.

1P TOWER

- Intel® Core™2 Duo processors and Intel® Xeon® processors 3000 sequence
- Intel® 3210 chipset
- 8GB of maximum memory
- 4 slots of 1/2GB DDR2 800MHz ECC SDRAM uDIMM
- 5 high-performance PCI expansion slots
- RAID 0, 1, 10 and 0, 1, 5, 50, 60

For more information on how ThinkServer works for you, **visit www.lenovo.com/thinkserver.**

lenovo®

INTRODUCING THE HIGH-PERFORMING LENOVO THINKSERVER™ TD100.

This dual-processor tower server is a high-performance system that works with the mission-critical applications in use in a branch office. It extends the value of your IT assets, understands that uptime is critical, and offers excellent scalability and data protection. The TD100 charges your CRM, virtualization, database, Web server, e-mail and file/print needs with ease.

2P TOWER

- Intel® Xeon® processors 5000 sequence
- Intel® 5000P chipset
- 48GB of maximum memory
- 8 slots of 1/2/4GB 667MHz DDR2 with Advanced ECC FBDIMM
- 6 high-performance PCI expansion slots
- RAID 0, 1, 10 and 0, 1, 1e, 5, 6, 10

HARDWARE CUSTOMIZATION. GIVING YOU THE OPTIONS YOU NEED.

ULTIMATE SELECTION

Lenovo provides options for customers so they have the ability to upgrade or expand their ThinkServer system's capabilities. ThinkServer options include branded product offerings such as Intel® Xeon® processors, unbuffered and fully-buffered memory DIMMs, and SATA and SAS hard disk drives. Additionally, customers can choose from a list of industry-proven options that enhance the selection palate.

New Lenovo ThinkServer™ Branded Options

- 6 processors
- 5 memory offerings
- 13 hard disk drives (simple and hot-swap)

Existing Lenovo Think® Options

- Keyboards, mice and monitors

ThinkServer™ Ready Options

- RAID controllers and SAS HBA adapters
- External storage HBAs and tape drives
- Optical drives, networking, power, console connectivity and cables
- Racks, tower-to-rack conversion kits and rack power

lenovo®

THE LENOVO THINKSERVER™ SERIES. THOUGHTFUL IDEAS AT YOUR SERVICE.

Thoughtfully Designed Software

ThinkServer Management Tools are designed to make server setup, management and updating the most simple, efficient, effective and business-ready procedures you'll ever perform for your business.

ThinkServer™ EasyStartup

ThinkServer EasyStartup helps you get your new ThinkServer up and running quickly. Its user-friendly interface makes server installation and configuration simple for SMBs.

What it does for you:

- Hardware installation and configuration tool for initial setup
- Easy to use and intuitive
- Designed for users who lack technical knowledge
- Configures your system to your specifications
- Quickly gets your system up and running
- *Specific business solutions:*
  - Prepares your server hardware
  - Supports installation of Windows® or Linux® operating systems

ThinkServer™ EasyUpdate

ThinkServer EasyUpdate keeps your ThinkServer up to date, helping it work better for your business.

What it does for you:

- Easy to use utility to update server drivers and firmware
  - One tool for all Lenovo hardware and firmware updates
- Easy Web-delivered updates
- *Specific business solutions:*
  - Keeps server hardware updated
- Ensures reliability and performance

ThinkServer™ EasyManage

ThinkServer EasyManage is specifically designed to help growing businesses manage and administer their servers simply and effectively.

What it does for you:

- Server management tool for console-based hardware administration
- Easy to use
- Designed for growing businesses' specific needs
- Local and remote console access for 24x7 support
- *Specific business solutions:*
  - Health Dashboard
    - Remote problem notification and remediation
    - Send alerts anywhere, anytime — to text, e-mail and more
  - Monitoring and Alerting
    - Proactive problem alerting — know about problems before they happen
    - Hardware alerts occur even if the operating system isn't running
  - Integrated Lenovo ThinkServer Update
    - Hardware driver and firmware updates delivered seamlessly
  - LANDesk® Support

EXCEPTIONAL MACHINES DESERVE EXCEPTIONAL SERVICE.

ThinkPlus Services for ThinkServers were designed with small business needs in mind. The decision to buy a server should be made carefully and thoughtfully, taking into account not only how the server will support your business, but also how your server will be supported.

Lenovo makes that decision easy. Lenovo ThinkServers are engineered for exceptional quality to support your growing business needs. But what's more, they are supported by award-winning Lenovo Service, delivered hand-in-hand with your trusted business partner.

Lenovo will get your new server up and running quickly, train your employees and provide priority response for all of your service needs. We're committed to ensuring the ultimate server ownership experience.

Lenovo supports the server and helps you protect your critical business data. We can even take care of end-of-life disposal issues with environmentally responsible asset recovery solutions.

THINKPLUS™ PRODUCTIVITY.

With ThinkPlus Productivity, you get better value with one simple package of support that includes:

INSTALLATION
Get fast, easy installation of your ThinkServer by a Lenovo-approved technician.

ONLINE TRAINING
Understanding Lenovo Servers
Online training is developed and delivered exclusively by Lenovo Training Solutions. You'll receive training on the basics of implementing, deploying and troubleshooting Lenovo ThinkServers, providing comfort and confidence with your new server.

THINKPLUS PRIORITY SUPPORT
Our idea for fast, dependable and advanced IT support when you need it. Simplify your IT needs with our consolidated, single source for hardware and software support.

THINKPLUS™ PRIORITY SUPPORT.

Your ThinkServer often operates in an 'always-on' condition for years at a time, providing business-critical application support to your company. So if it requires attention, you don't have the luxury of waiting for technical support. You need ThinkPlus Priority Support, a consolidated support package for both hardware and software that ensures fast, dependable and advanced IT support for your ThinkServer.

THINKPLUS™ PRIORITY SUPPORT IS A ROBUST PACKAGE THAT INCLUDES:

24x7 Telephone Technical Support	Simple	Simplify support with a single source for hardware and software expertise available when you need it the most.
Priority Call Routing	Fast	Readily available, expedited access gets you to the front of the queue.
Advanced Level Technicians	Effective	Fast problem resolution from technicians with the expertise to diagnose and solve problems quickly.
Basic Usage and Software Installation Support	Easy	Telephone support for software installation and basic server usage issues or problems for in-the-box applications, including ThinkServer EasyManage, EasySetup and EasyUpdate.
Next Business Day Onsite Service	Convenient	The partner you trust, at your place of business, with the parts and expertise to fix the problem right, during normal business hours.
OPTIONAL SERVICES		
Hard Disk Drive Retention	Safe	Once your data, always your data. If your hard drive fails, retain the failed drive that contains your business data. Hard Disk Drive Retention can be purchased as part of ThinkPlus Priority as an add-on option.
Priority 4	Faster	For even faster response time to address critical support needs, ThinkPlus Priority 4 provides 4-hour onsite response*, 24/7.

THINKPLUS™ PRIORITY SUPPORT 90-DAY TRIAL INCLUDED**.

Experience the difference for yourself Lenovo brings a long track-record of exceptionally engineered products and award-winning services to the server market. Because we know you have a choice in server vendors, we're including ThinkPlus Priority Support on new ThinkServers for 90 days, so you can experience first-hand peace of mind and confidence during the most critical time of server ownership. You'll get access to all of the benefits of Priority service, including our advanced level, highly-skilled technicians, who are specially trained on Lenovo ThinkServers.

ADDITIONAL SERVICES AVAILABLE FOR YOUR THINKSERVER

Lenovo offers a variety of services that support and enhance the ThinkServer experience. These services provide "cradle to grave" support to our customers for Lenovo ThinkServer systems—from initial installation and training to ongoing support, data security and end-of-life asset disposition.

ONLINE DATA BACKUP

How will you recover your critical business data in the event of a physical disaster? Online Data Backup is a disaster recovery and business continuity solution for your business. It provides simple and secure offsite data storage that not only stores your data, but also lets you recover it in case of an unforeseen event. For more information, visit www.lenovo.com/protectmydata

ONLINE TRAINING+

Online training is developed and delivered by Lenovo training solutions. It includes the basics on implementing, deploying and troubleshooting Lenovo ThinkServers.

ONSITE HARDWARE INSTALLATION

Get your ThinkServer ready for business with expert installation service, delivered by either Lenovo or your approved service provider.

WARRANTY EXTENSIONS AND UPGRADES

Extend base warranty coverage from one to three years. Upgrade to onsite four-hour response

ASSET RECOVERY

How do you currently dispose of your retired electronics? Lenovo offers Asset Recovery Service as an environmentally responsible solution for end-of-life asset disposal and secure data destruction.

PROFESSIONAL SERVICES

Lenovo and Lenovo approved partners provide expertise to help you design, plan, and implement a wide range of solutions for your ThinkServer.

* After initial telephone troubleshooting.
** Customers must purchase service after 90-day trial in order to continue Priority Support.
+ Online Training is available in English only at the time of launch.
